The Shure Audio Institute is an educational and networking platform for systems integrators and consultants, retailers, the pro audio industry and Shure end users including musicians and engineers. With a variety of online video courses and instructor-led workshops, Shure provides deep expertise and practical skills on technical, sales, and product solutions.

For more information on the training opportunities offered in your area, please visit [www.shure.com/sai](http://www.shure.com/sai)

Shure Audio Institute provides complimentary courses and certification to those who are interested in learning more about Shure products.

Completing one or more Shure Audio Institute courses or certifications does not make you an authorized reseller or distributor of Shure products. After completion of a certification program, you may refer to yourself as certified under that program. As Shure does not have any certification with an expert label, you may not hold yourself out to be an "expert" of Shure products.

If you are interested in becoming a reseller or distributor of Shure products, please contact a Shure representative.

Shure reserves the right to revoke any certification or merits awarded for completion of course materials.
